

Protect your computing environment
from the elements with...

RoomWatch™

Web Enabled Environment Monitoring

RoomWatch™ monitors and protects your computer rooms and critical servers from changing environmental conditions:

- Temperature
- Power
- Humidity
- Flood

Additional monitoring options include:

- Intruders
- Smoke
- Generators

Alerts are delivered via Mobile Phone (SMS text), Pager, Email, Instant Messenger, Windows Broadcast, .WAV sound, message boards, etc.

Temperature and humidity values are displayed live on the web. RoomWatch™ will plug into any TCP/IP network to monitor computer rooms anywhere in the world!

RoomWatch™ works seamlessly with **NIGHTWATCH**® Hillary Software's integrated network event monitoring solution, or with any SNMP-enabled monitoring software including Tivoli, HP Openview, Unicenter TNG, BMC Patrol, etc.

RoomWatch™
Installs in minutes!
Quick, easy installation.
Monitor any room
environment.
Call and we'll show you how!
